

# AI Transparent Prompt Full Example:

---

## Workshop #5 Assessment Hands-On Activity

You are an expert faculty developer. I need your help creating assessments for junior level college students for a course on Cultural studies. Please write three assessments that are AI transparent, assessments that have clear policies in terms of AI use, defined quality criteria and focus grading on higher order thinking tasks The assessment should include the following components:

**Assessment Overview:** Provide a brief introduction explaining the purpose of using AI tools in this assessment and how it relates to the course objectives.

**Learning Objectives:** Clearly state the learning outcomes, focusing on critical analysis, creativity, and ethical considerations.

**Guidelines for AI Use:** Include detailed instructions on how students should engage with AI tools, and require a reflection component where students analyze the strengths, limitations, and ethical implications of the AI output.

**Submission Requirements:** Specify how students should document their interactions with AI tools, properly attribute AI-generated content, and present their final submission. Evaluation Criteria: Develop a rubric outlining the assessment areas such as effective AI use, critical analysis, creativity, and clarity.

Examples of feedback to students that are substantive

## Assessment 1: Comparative Cultural Analysis

### Assessment Overview

In this assessment, you will use AI tools to conduct a comparative analysis of two different cultures. The purpose is to enhance your understanding of cultural diversity and develop critical thinking skills by analyzing cultural practices, values, and artifacts.

### Learning Objectives

- Critically analyze cultural practices and values from different cultures.
- Demonstrate creativity in presenting comparative cultural insights.
- Evaluate the ethical considerations of using AI in cultural analysis.

### Guidelines for AI Use

- **Engagement:** Use AI tools like ChatGPT to gather information and generate initial comparative insights. Ensure that the final analysis is your own work.
  - **Reflection:** Write a reflection analyzing the AI output. Discuss its strengths, limitations, and any ethical concerns. Consider questions such as:
    - How did the AI-generated content help you understand the cultural contexts?
    - What limitations did you find in the AI-generated content?
    - How did you ensure your analysis remained critical and original?
-

## Submission Requirements

- **Documentation:** Include a log of your interactions with AI tools, documenting the prompts used and AI responses.
- **Attribution:** Clearly attribute any AI-generated content in your analysis.
- **Final Submission:** Submit a comparative cultural analysis report, including the main analysis, the reflection on AI use, and the documentation of AI interactions.

## Evaluation Criteria

Criteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
<b>Effective AI Use</b>	Skillfully integrates AI-generated insights, demonstrating deep understanding and creativity.	Integrates AI-generated insights effectively with minor gaps.	Uses AI-generated insights with some relevance but lacks depth.	Minimal or ineffective use of AI-generated insights.
<b>Critical Analysis</b>	Provides thorough and insightful analysis of cultural practices and values, addressing strengths, limitations, and ethical concerns.	Analyzes cultural practices and values with good insights, addressing most key aspects.	Basic analysis of cultural practices and values, with limited depth.	Lacks critical analysis or fails to address key aspects.
<b>Creativity</b>	Demonstrates high creativity in presenting comparative cultural insights.	Shows creativity in presenting comparative cultural insights, with some innovative elements.	Presents comparative cultural insights with basic creativity.	Lacks creativity in presenting comparative cultural insights.
<b>Clarity and Quality</b>	Presents analysis report clearly and professionally, with well-organized content and minimal errors.	Presents analysis report clearly with minor errors or organizational issues.	Presents analysis report with some clarity but has noticeable errors or organizational issues.	Analysis report is unclear, poorly organized, or contains significant errors.

## Examples of Feedback

- **Substantive Feedback:** “Your comparative analysis of Japanese and Mexican cultural practices was insightful and well-structured. You effectively used AI to gather initial information, but your critical analysis and personal insights were particularly strong. For future analyses, consider exploring more diverse sources to enrich your perspective.”

## Assessment 2: Cultural Artifact Interpretation

### Assessment Overview

In this assessment, you will interpret a cultural artifact using AI tools to gather background information and generate initial interpretations. The purpose is to develop your analytical and interpretive skills by examining the significance and context of cultural artifacts.

### Learning Objectives

- Critically interpret the significance and context of cultural artifacts.
- Demonstrate creativity in presenting your interpretations.
- Evaluate the ethical considerations of using AI in cultural interpretation.

### Guidelines for AI Use

- **Engagement:** Use AI tools like ChatGPT to gather background information and generate initial interpretations of the cultural artifact. Ensure that the final interpretation is your own work.

- **Reflection:** Write a reflection analyzing the AI output. Discuss its strengths, limitations, and any ethical concerns. Consider questions such as:
  - How did the AI-generated content help you understand the cultural artifact?
  - What limitations did you find in the AI-generated content?
  - How did you ensure your interpretation remained critical and original?

### Submission Requirements

- **Documentation:** Include a log of your interactions with AI tools, documenting the prompts used and AI responses.
- **Attribution:** Clearly attribute any AI-generated content in your interpretation.
- **Final Submission:** Submit a cultural artifact interpretation report, including the main interpretation, the reflection on AI use, and the documentation of AI interactions.

### Evaluation Criteria

Criteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
<b>Effective AI Use</b>	Skillfully integrates AI-generated insights, demonstrating deep understanding and creativity.	Integrates AI-generated insights effectively with minor gaps.	Uses AI-generated insights with some relevance but lacks depth.	Minimal or ineffective use of AI-generated insights.
<b>Critical Analysis</b>	Provides thorough and insightful interpretation of the cultural artifact, addressing strengths, limitations, and ethical concerns.	Interprets the cultural artifact with good insights, addressing most key aspects.	Basic interpretation of the cultural artifact, with limited depth.	Lacks critical analysis or fails to address key aspects.
<b>Creativity</b>	Demonstrates high creativity in presenting the interpretation.	Shows creativity in presenting the interpretation, with some innovative elements.	Presents the interpretation with basic creativity.	Lacks creativity in presenting the interpretation.
<b>Clarity and Quality</b>	Presents interpretation report clearly and professionally, with well-organized content and minimal errors.	Presents interpretation report clearly with minor errors or organizational issues.	Presents interpretation report with some clarity but has noticeable errors or organizational issues.	Interpretation report is unclear, poorly organized, or contains significant errors.

### Examples of Feedback

- **Substantive Feedback:** “Your interpretation of the Native American pottery artifact was detailed and insightful. You effectively used AI to gather background information, but your own critical analysis and creative presentation were particularly strong. For future interpretations, consider comparing similar artifacts to provide a broader context.”

## Assessment 3: Ethical Analysis of Cultural Representation in Media

### Assessment Overview

In this assessment, you will conduct an ethical analysis of cultural representation in a chosen media source (e.g., film, television show, advertisement). The purpose is to develop your critical thinking and ethical reasoning skills by examining how cultures are portrayed in media.

## Learning Objectives

- Critically analyze the representation of cultures in media.
- Demonstrate an understanding of the ethical implications of cultural representation.
- Reflect on the strengths and limitations of AI-generated content in ethical analysis.

## Guidelines for AI Use

- **Engagement:** Use AI tools like ChatGPT to generate initial insights and questions for your analysis. Ensure that the final ethical analysis is your own work.
- **Reflection:** Write a reflection analyzing the AI output. Discuss its strengths, limitations, and any ethical concerns. Consider questions such as:
  - How did the AI-generated content help you understand the cultural representation in media?
  - What limitations did you find in the AI-generated content?
  - How did you ensure your analysis remained critical and original?

## Submission Requirements

- **Documentation:** Include a log of your interactions with AI tools, documenting the prompts used and AI responses.
- **Attribution:** Clearly attribute any AI-generated content in your analysis.
- **Final Submission:** Submit an ethical analysis report, including the main analysis, the reflection on AI use, and the documentation of AI interactions.

## Evaluation Criteria

Criteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
<b>Effective AI Use</b>	Skillfully integrates AI-generated insights, demonstrating deep understanding and creativity.	Integrates AI-generated insights effectively with minor gaps.	Uses AI-generated insights with some relevance but lacks depth.	Minimal or ineffective use of AI-generated insights.
<b>Critical Analysis</b>	Provides thorough and insightful ethical analysis of cultural representation, addressing strengths, limitations, and ethical concerns.	Analyzes cultural representation with good insights, addressing most key aspects.	Basic ethical analysis of cultural representation, with limited depth.	Lacks critical analysis or fails to address key aspects.
<b>Creativity</b>	Demonstrates high creativity in presenting the ethical analysis.	Shows creativity in presenting the ethical analysis, with some innovative elements.	Presents the ethical analysis with basic creativity.	Lacks creativity in presenting the ethical analysis.
<b>Clarity and Quality</b>	Presents analysis report clearly and professionally, with well-organized content and minimal errors.	Presents analysis report clearly with minor errors or organizational issues.	Presents analysis report with some clarity but has noticeable errors or organizational issues.	Analysis report is unclear, poorly organized, or contains significant errors.

## Examples of Feedback

- **Substantive Feedback:** “Your ethical analysis of cultural representation in the film was comprehensive and well-argued. You effectively used AI to generate initial insights, but your own critical analysis and ethical considerations were particularly strong. For future analyses, consider exploring multiple media sources to provide a more nuanced perspective.”
