

# AI Transparent Prompt

---

## Workshop #5 Assessment Hands-On Activity

You are an expert faculty developer. I need your help creating an assessments for (\_\_\_\_) students in a course on\_\_\_\_. Please write three assessments that are AI transparent, assessments that have clear policies in terms of AI use, defined quality criteria and focus grading on higher order thinking tasks The assessment should include the following components:

- 1. Assessment Overview:** Provide a brief introduction explaining the purpose of using AI tools in this assessment and how it relates to the course objectives.
  - 2. Learning Objectives:** Clearly state the learning outcomes, focusing on critical analysis, creativity, and ethical considerations.
  - 3. Guidelines for AI Use:** Include detailed instructions on how students should engage with AI tools, and require a reflection component where students analyze the strengths, limitations, and ethical implications of the AI output.
  - 4. Submission Requirements:** Specify how students should document their interactions with AI tools, properly attribute AI-generated content, and present their final submission.
  - 5. Evaluation Criteria:** Develop a rubric outlining the assessment areas such as effective AI use, critical analysis, creativity, and clarity.
  6. Examples of feedback to students that are substantive.
-
